## **6** Objective

Passionate and results-driven Java Full Stack Developer with a solid foundation in web development, backend systems, and database management. Looking for opportunities to contribute to innovative software solutions using Java, Spring Boot, and modern frontend technologies.

### **X** Technical Skills

Languages: Java, JavaScript, HTML, CSS, SQL

Frameworks: Spring Boot, REST API

Database: MySQL

 Tools: Eclipse, VS Code, Postman, Git, GitHub, MySQL Workbench

 Concepts: Object-Oriented Programming, Agile, API Integration, Responsive Web Design

**Experience** 

# Java Full Stack Intern Zidio (Remote) | Apr 2025 – Jul 2025

- Built an Internship & Job Portal using Java, Spring Boot, MySQL, and HTML/CSS/JavaScript.
- Created user modules for registration, login, job listings, and application tracking.
- Integrated RESTful APIs with frontend and performed backend validations.
- Participated in daily standups and contributed to sprint planning and testing.

Java Full Stack Trainee

UNIQ Technologies, Chennai | Aug 2024 – Jan 2025

- Developed a Smart Attendance Management System using Java, Spring Boot, and MySQL.
- Designed user and admin modules with time-based attendance logic using LocalTime API.
- Implemented secure login and role-based access control.
- Practiced Agile methodologies and used Postman for API testing.

# Tech Team Lead (Freelancer – Part Time) CAPE COMORIN MEDIA | Jan 2023 – Present

- Leading the tech team to deliver client projects involving static and dynamic websites.
- Collaborating with designers and project managers to develop responsive and modern websites.
- Handling end-to-end development using HTML, CSS, JavaScript, and backend integration.
- Managing deployments and ensuring timely delivery based on client requirements.

#### **居 Education**

B.E. Mechanical Engineering
Noorul Islam Centre for Higher Education | 2020 – 2024 |
GPA: 7.9

Higher Secondary (Computer Science)
St. Joseph's Matric Hr. Sec. School, Kanniyakumari | 2020
SSLC

St. Joseph's Matric Hr. Sec. School, Kanniyakumari | 2018

#### Certifications & Virtual Experiences

- Java Full Stack Development, UNIQ Technologies
- AWS APAC Solutions Architect Virtual Experience, Forage
- Citi ICG Software Development Virtual Job Simulation, Forage

**Smart Attendance Management System** 

- Java, Spring Boot, MySQL, REST APIs
- Tracks and stores attendance logs with time-stamping
- Admin dashboard for user management and reporting

**UTS – Ticket Booking System** (Personal Project)

- Spring Boot + MySQL backend, HTML/CSS/JS frontend
- Train search, booking, cancellation, seat availability, user dashboard
